

Comenius travel diary

Day 2 / Tuesday / 03/25/2014

I had a good night. We had enough time because we did not have to leave early. There was a great Polish breakfast, they really know how to start the day. When we arrived at school there was still some time to relax. After a whole day together with English speakers only, I was glad to be able to speak German again.

This day was supposed to be spent on playing games. The first one was a city game in Tczew. Although it was very well-designed and I could see that much of creativity was put into it, it was not that much fun, because the weather unfortunately was bad: It was cold and wet. When we had finished the game we could go into a restaurant and warm up. Again the food was quite good. After that we went back to school.

There, a new round of games started: the guests' ones. We took some time to play all the different games, it was fun, we got prizes and had snacks until we went back to our guest families. We arranged a meeting in the evening with everyone at a local 'tea house' and made a great day finish.
