

Thursday, 27th of March

On Thursday we met at school in the morning where we were welcomed by the headmaster, the police officer of Tczew as well as by the mayor of Tczew. There was a small school band singing and there were people being honored for their commitment in Europe.

After this we went to Gdansk, where we had a look around town and got to know some interesting details of Gdansk's history with the help of a guide who told us about some political events and their relation to the city. Afterwards we had lunch at a nice restaurant at the top of a skyscraper, so we had a fantastic view over the whole city. Then we went shopping in a shopping mall and looked at some specific jewelry called "Amber" which Gdansk is quite famous for.

Finally we went back to Tczew where we had dinner at our hostfamily's home. Last but not least we got to school again because there was a karaoke party for all students that were taking part in the

Comenius project in Poland. We had lots of fun and also had the opportunity to talk to students from other countries.
