
DEAR DIARY,

on our last day in Poland we all met at school at eight o'clock. First we said goodbye to the Spanish team. Then we had some free time in the Comenius room. While some Polish students were playing piano, the other students sat around and talked. During this time the Belgian and the Bulgarian team had to leave, as well. My Polish partner had asked me whether I wanted to attend a Polish Geography lesson. Although everybody spoke Polish I understood a little bit. After the lesson I got to know some of my Polish partner's friends. They were very nice and one of them even was born in Germany and spoke German very well. When I was back in the Comenius room, most of the Comenius students, who had not left at this point of time, went to a coffee shop. There we ate some cake and drank some hot drinks. After that there wasn't so much time left, so we talked a bit, took our luggage and went outside to the taxi. We left the school at half past one, our flight left at quarter past four. Without any problems we arrived in Frankfurt. With a taxi, which was detained by the traffic, we got back to Weilburg. Our families waited for us and were happy to see us again.

We all enjoyed the trip to Poland and met so many friendly people. Everybody had great fun and the time flew by. Thank you all for this great week!

Carolin
