

Diary Entry of March 16th

On our second day in Sofia we had to be at school at 8:00 am. We had breakfast there and this was our first time we met the students from the other countries. Everybody was a bit shy and so we talked to the others from our own country about Monday and our first experience in Bulgaria. After an interesting breakfast, we went upstairs to the hall of the school. We played some games to get to know the other students and new languages. It was very exciting to hear six different languages. We had to say some words like 'good morning' in another language and it was not very easy, but funny. After the games, we assembled our tourism stalls with our brochures, postcards, food and souvenirs. I was very happy about it, because I was very hungry and so I was able to eat some chocolate.

Now every country had to present their part of the boat trip along the rivers with a power point presentation. It was a little bit boring, but now we could see how the others had worked. A group of Bulgarians presented a traditional dance and they sang, too. And the best of it was that they distributed traditional bread for everybody. Afterwards we went around looking at the other touristic stalls. It was very interesting and the Turkish delight was very good. Now we had nothing to do and so we played a card game with the Spanish students. We had a lot of fun and got to know the others better. At last we took some pictures of the whole Comenius group. And then, we had free time. Many of the group wanted to do something together with the others instead of going home and so we went to a mall. It was surprising to see the same shops with the same prices like in Germany. After one hour we went back home and I went to bed being tired.
